Applies at 375° on Cotton  
and Cotton-Poly Blends

## HOW IS THE PRINT MADE?

Full Color prints are plastisol ink heat transfers that use Cyan, Magenta, Yellow and Black (CMYK) to create a full-color image. Our 4-Color Process option is recommended for dynamic graphics containing photographic elements or 10+ colors. Colors in your image are printed based on the CMYK values in your art file.

## 4 COLOR PROCESS

	50 * sheets	100 sheets	250 sheets	500 sheets	1000 sheets	1500 sheets	2000 sheets
